Bartlesville high schools faculty directory

We are prepared for the future Which technology tools are available to the teachers and students? All Bartlesville High School in regular education receives a home Chromebook for school use, and all middle school students in regular education will receive one start in August 2019. Secondary classes use the same Canvas Learning Management System used at much higher education settings. By August 2019, each Bartlesville primary school will have one or more portable Chromebook carts per grade level, as well as two iPad cars for STEM modules. All schools have Wifi networks and classroom ceiling projectors. All primary and middle school classrooms and many high school classrooms have an electronic whiteboard. What is the student to teacher relationships in primary, middle and secondary schools? Class sizes in Bartlesville schools vary significantly depending on degree level, subject opportunity and special needs of students. In general, classes are smaller than that of many peer school districts. Parents can expect classes to average around 25 students in the higher grades, while classes will be smaller at the elementary and pre-K levels. The districtwide proportion of total students to total classroom teachers is 16-1, including special teachers. The student teacher ratio averages 17-1 in primary schools, 13-1 in middle schools, 17-1 in Mid-High and 16-1 in high school. Data on the number of students and teachers at each school is contained in the table on the Academy page. How do the test statements of Bartlesville students compare to those elsewhere in Oklahoma? Bartlesville Public Schools consistently achieved in the top two or three percent of the largest 32 school districts in the state. BPSD has a strong academic performance, and a high percentage of students score at an advanced level in mathematics and read compared to other districts. Are Brown athletes real student athletes? Are academics stressed within the athletic ranks? BPSD athletes are true student athletes in every sense of the word. In the 2014-15 school year, all BPSD athletic teams earned an overall GPA of 3.77, resulting in 22 Academic State Championship teams. The average grade marks by team are as follows: Boys country - 3.9; Girls country - 3.9; Football - 3.2; Softball - 3.7; Volleyball - 3.9; Boys basketball - 3.5; Girls basketball - 3.6; Boys swimming - 3.4; Girls swimming - 3.9; Wrestling - 3.1; Baseball - 3.6; Girls Golf - 3.7; Boys golf - 3.5; Girls football - 3.6; Boys football - 3.7; Girls tennis - 3.9; Boys tennis - 3.9; Girls track - 3.8; Boys track - 3.7; Slow pitch - 3.6; Cheer - 3.5, and Pom - 3.6. Can a student in the Bartlesville schools receive college credit for courses taken in high school? Yes, Bartlesville High School currently offers 19 AP classes. Students in those classes are eligible to test, which gives their college credit at most universities. Also presented are simultaneous classes in which students classes taught by college professors as one of their high school classes. The district also offers Pre-Engineering courses in its Phillips 66 Innovation Lab which leads to later Pre-Engineering courses at Tri-County Tech. Does Bartlesville have any online (virtual) classes? Yes, the Bartlesville Public School district offers online classes for promotion, making up classes, and as an alternative to the traditional school environment. What about the quality of teachers in the Bartlesville Public School district? A third of the district's teachers received advanced degrees, including more than half of the high school education faculty. Teachers from all grade levels attend a variety of professional development opportunities offered by the district and outside the district, and many choose to pursue advanced degrees. What safety measures took place through the school district to protect the children? When it comes to the safety of students, the district's aim is to build trusting relationships between students, staff and parents. Important steps taken to build a safe environment for students include: A Lobby Guard system is now in place at all the school premises, relieving visitors to go to the system and carry a badge before being admitted to school. Each website conducts safe site committee meetings with parents included. Safety planning meetings are first held with BPSD to update the emergency crisis plan. A student crime stipline was created and shared with students and the public so that students and the public have a way to report concerns anonymously. School resource officers are strategically situated in two sites so that they can easily get to any of the other sites if necessary. Every Bartlesville Public School district website performs 10 safety drills per year. First responders inspect each website, identifying tornado shelter areas and providing a list of safety measures relevant to each website. How does the district serve the transportation needs of parents who want to get their children to and from school? The district aims to ease the pressure on families by providing free transport to and from the school. The transport section uses a computer bus route system that enables the most efficient and timely routes. Currently the transport division has 26 regular bus routes and five special needs bus routes. Average daily ridership on the 26 regular routes is approximately 1 600 students, with an additional 75 to 90 special needs transporting students daily. School buses are designed to be safer than passenger vehicles to prevent crashes and prevent injuries. Examples are belovned standards, size and height, flashing red lights, cross view mirrors, fortrubed edges, bright color and stop sign arms. Additional transport protection measures include a three-camera system on all buses that offer additional security manager and students offer; a state-of-the-art digitally encrypted two-way two-way for full privacy and security for all radio communication; and a satellite GPS to see remotely locations of all buses. Bus drivers are professionals, trained for their vehicles. They all passed background checks and were regularly drug tested. The bus fleet is inspected before and after use on each school day, and vehicles are inspected annually by a certified mechanic. What are the voluntary opportunities in the district? There are numerous volunteer opportunities for parents and community volunteers in the district. Throughout the year, schools need volunteer tutors, school Parent/Teacher Association officers & members, friends, test lawyers, story-advertisements/readers, field travellers, lunch room monitors, cross-course guards and classroom assistants to assist in copying, developing bullets and many other features. Are Bartlesville public school parents very involved? Would it be easy for me to take in and help? Yes, Bartlesville Public School District parents are very involved. If you are a parent who wants to volunteer at your child's school, contact the school's Parent/Teacher Association. If you are a community member looking for volunteer, please contact Christina Rigdon 918-336-3311 x1164 or visit to access the required forms necessary to start the screening process for volunteers. All prospective volunteers must be 18 or older, be of good moral character and pass a background verification. What is the rationale for the Freshman Academy concept at BHS? Research shows that the ninth grade year is a critical one in terms of student retention. The creation of the Freshman Academy is based on feedback from other four-year high schools in Oklahoma, including the high-performing Edmond District, which has reported success with this approach in transition from students from middle school to high school. The Freshman Academy offers a separate area for ninth grade core classes, with its own administrative offices, counselling counselor, library and computer layers. This arrangement enables freshmen to spend most of their day in a smaller academic environment, sharing large-scale school facilities such as the cafeteria, gyms and fine art centre. Freshmen will have their own separate lunch period in the new cafeteria, but will have access to the shared fine arts and athletics facilities during school day and an option for advanced courses in the 10-12 grade classrooms. The Freshman Center will also have its own outdoor drive and general area, as well as picks/waste zone on the east side of the campus. We would like to hear from you. Contact us with any questions or comments you may have, and we will soon come to you again.
